**PRODUCT DATA SHEET**

Revised: Sep. 2017

# **DIESEL POWER BOOSTER**

## **DESCRIPTION**

**DIESEL POWER BOOSTER** Complete Fuel System Treatment is a diesel fuel additive, designed to clean the complete fuel system. This fuel additive is formulated with a cetane improver, optimizing fuel combustion, engine power and acceleration.

**DIESEL POWER BOOSTER** contain special components designed to reduce wear, increase lubricity when running on low-sulphur fuels and resist corrosion, as well as improving fuel economy and emissions output.

## **FEATURES AND ADVANTAGES**

- Cleans complete fuel system and protects against injector an injector pump wear, improving engine reliability
- Cetane improver optimizes ignition, combustion, power output and acceleration
- Improves engine lubrication when running on low-sulphur fuels, reducing engine wear and maintenance
- Reduces exhaust emissions, fuel consumption and running costs
- Increases component corrosion protection, extending engine service life
- Prevents fuel ageing, and suppresses foaming during filling and in the tank
- Reduces diesel knock and noise, provides smoother idling
- Improves cold-start performance

## **TYPICAL SPECS**

<b>Product Designation</b>	<b>Test Method</b>	
Appearance	Visual	Clear ; Liquid
Kin. viscosity, mm <sup>2</sup> /s	ASTM D-445	2.05
Density, kg/l	ASTM D-4052	0.849
Flash point, °F (°C) MINIMUM	ASTM D-93	110 (43)
<b>P/N</b> 12x500 ml		90148

VALUES SHOWN HERE ARE TYPICAL AND MAY VARY
