

PRODUCT DATA SHEET

ENGINE FLUSH

Product Overview

TOP 1 OIL Engine Flush is specifically formulated to instantly remove operational contaminants and residues throughout the oil and lubrication systems. In combination with the carrier fluid, the dispersant and detergent additive blend dissolves sludge and contaminants quickly and reliably, extending the engine's service life.

Features & Advantages

Minimizes emissions

Unique cleaning effect

Significant reduction in wear

Optimal engine performance

Neutralizes engine-damaging acids

Reduction in oil and fuel consumption

Simple to use

Typical Characteristics

Name, units	ENGINE FLUSH
Flash Point (COC), °C	110
Appearance	Pale yellow transparent, no precipitate
Mechanical Admixture	0
Copper Sheet	1a
